CJ Lang (LEFT), view from Longtown Road, after turning off Kingsway East.

HEAVY GOODS VEHICLES

Large commercial vehicles **SHOULD NOT USE** the slip road off the A90 Kingsway East, marked "Longtown Industrial Estate", as this passes through a residential area. The route to the depot for all commercial vehicles from Perth and Aberdeen is via the last roundabout on the A90 Kingsway East (Scott Fyffe car sales and Shell Station) taking a first left from the roundabout on to the Douglas Road, then first left at the next roundabout on to Longtown Road (behind Asda). The entrance to the CJ Lang site is off Longtown Road on the right, immediately after the junction with Longtown Street.

FROM THE WEST (EDINBURGH & PERTH, A90)

On arriving at Dundee on the A90 from Edinburgh/Perth, continue on the Kingsway (A90) through 6 roundabouts, remaining on the main dual carriageway. After the 6th roundabout, take the first available exit left (Longtown Road). CJ Lang distribution depot is then approximately 500 yards on your left hand side.

FROM THE NORTH (ABERDEEN, A90)

Arriving on the main Aberdeen/Forfar road, follow signs for City Centre. At the traffic lights, turn left on to the A90 Kingsway East. Continue straight through the next roundabout and then take the first available left off the Kingsway. CJ Lang distribution depot is then approximately 500 yards on your left hand side.

FROM FIFE (A92, TAY ROAD BRIDGE)

Approaching Dundee over the Tay Road Bridge, keep right on to ramp and follow signs for Aberdeen. Head along Dock Street (A92). Turn left at traffic lights on to Greendykes Road. At the 2nd Roundabout take the 3rd exit onto Douglas Road. Take the First exit on to Longtown Road. CJ Lang distribution depot is then approximately 500 yards on your right hand side.
